Position Title:

Sr. Logistics Specialist

Location:

Arlington, VA

About Metrica:

Metrica Inc. is one of the small business leader in Global Mobility, Cybersecurity Modernization and International Logistics. Our core values include providing our clients with strong service, continuous improvement and quick response and giving our employees responsibility, trust and ownership of their positions.

Position Description:

Metrica is seeking to fill the Senior Logistics Specialist position based in Arlington, VA. In this position, you would administer program efforts providing Staffing Support, Freight Forwarding, Logistical Support, Security, Data Collection, Financial Analysis and Reporting and Business Process Services to U.S. Government and private sector clients. Candidates should have sound grounding in the acquisition and delivery of goods and services across the supply chain.

Education or Equivalent Training:

- Minimum 5-7 years of professional experience in international operations or similar field
- BA in business, accounting, finance or public administration or related field required
- Exceptional analytical and problem solving abilities
- Proficient in use of personal computers and MS Office Products and general office equipment
- Strong oral and written communications, including creating and delivering presentations
- Experience living or working overseas is a benefit, but not a requirement
- Self-starter who displays initiative and can work independently is a must. The attention to detail and the ability to work effectively under tight timelines is also critical to this position

Key Responsibilities:

- Assist in the management of a multi-million-dollar service contract and be familiar with varying contract, country-specific and customer requirements
- Coordinate and manage logistical efforts in assigned countries or regions

- Assist in identifying new overseas partners, managing tasks in over 25 countries, and developing effective business improvement processes
- Have the ability to conduct basic financial analyses, including trend analysis, budgeting, cost projection, burn-rate, best-value, and basic earned-value management
- Prepare and review invoices and cost projections
- Conduct basic financial analyses, including trend analysis, budgeting, cost projection, burn-rate, best-value, and basic earned-value management
- Prepare and review invoices and cost projections
- The ability to identify and develop solutions to complex logistical problems between the client and Metrica's overseas partners and/or local authorities, and address and resolve host country legal and compliance issues
- Focus on customer relationships and stakeholder management in order to provide exceptionally high-quality deliverables
- Demonstrate effective communications with the ability to translate raw data and extraneous information into applicable products to inform internal and external decisions
- Review task requests and identify resources required for each task
- Provide guidance and support to junior logistics specialists and other team members

Company Benefits

Metrica offers an excellent starting salary and outstanding fringe benefits, including Medical, Dental, Tuition Assistance, and 401(k) Retirement Plan to name a few.

Metrica is an Equal Opportunity Employer, M/F/D/V
